**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Having tried the big companies WiFi service, and currently have local fiber service I strongly oppose the USTelecom petition!

We tried a huge companys broadband WiFi service, and were GREATLY disappointed. Their Customer Service was awful. They started splitting our signal to provide hotspots for other subscribers (which greatly affected our signal strength). Their prices just kept rising once the promo price expired.

We have been happily using a smaller, local company for fiber WiFi service that has excellent signal strength, customer service and pricing.

There are 5 people in our household often running many devices at once, including all of our tv streaming, and we rely heavily on strong WiFi service for educational needs as well as business and entertainment.

PLEASE do not approve this, or any other, petition which would limit competition and put these excellent service providers out of business!!
